

How **RODIN** Transformed Its Cloud Strategy with **RackCorp**

About RODIN

Founded in 1993, RODIN has established itself as a leading IT services provider in Australia with over three decades of experience. Known for their security-first approach and customised IT solutions, RODIN has built a strong reputation for delivering dependable and innovative services to businesses across the country.

The Challenge

RODIN needed a private cloud provider that could deliver exceptional performance and reliability, scalable infrastructure to support growth, flexible deployment options, and cost-effective solutions.

Selection Criteria

After an extensive evaluation of various cloud providers, RODIN chose RackCorp based on several key criteria:

- *Comprehensive performance testing*
- *Proven reliability metrics*
- *Competitive pricing structure*
- *Strong partner references*
- *Robust SLA guarantees*

The Results

The partnership with RackCorp delivered immediate benefits:

PERFORMANCE

RackCorp's infrastructure helped RODIN to:

- Consistently outperform other public and private cloud providers
- Deliver the high-performance environment RODIN required for its clients
- Achieve reliability backed by industry-leading SLAs

SUPPORT

The partnership was strengthened by:

- Highly responsive 24/7 technical support
- Proactive problem resolution
- Strong partner program benefits
- Dedicated account management

BUSINESS VALUE

RODIN experienced significant improvements in:

- Infrastructure reliability and flexibility that scaled with business growth
- Operational efficiency
- Service delivery capabilities
- Cost optimisation

Client Testimonial

RackCorp's environment outperforms other public and private cloud providers. Their network and infrastructure reliability, backed by strong SLAs and guarantees, gives us complete confidence. The support team is fantastic and always responsive. We would absolutely recommend RackCorp to other companies looking for a reliable cloud partner.

- Ashley Brown, Head of Technical Services at RODIN Business Solutions
